Child Hunger Does Not Take a Summer Vacation

Across the nation 1 in 5 children struggle with food insecurity, not knowing when and where their next meal is coming from. More than 1 in 4 North Carolina kids is at risk of hunger. These kids may not have access to enough food or to healthy foods, such as fruits and vegetables. Hunger affects children's ability to learn. It puts them at risk for illness and other health issues. Learn more at <http://nc.nokidhungry.org>.

Many students depend on school meals. What happens when school is out? N.C. Summer Nutrition Programs help make sure that children can get the nutritious meals they need. All children 18 and under can receive free summer meals. No registration or ID is required.
